# Poster Session MED-IAERE 2022

## Guidelines for presenters

Poster presentations at MED-IAERE 2022 provide an opportunity for the promotion and dissemination of **funded projects** focusing on environmental issues in the Med area. Please follow the indications for outlining your poster:

**Design**

Posters should be printed on roll-up banners of standard size (we suggest 85 cm wide and 200 cm high).

Using images to accompany the text contents is highly recommended. Also, we warmly suggest including a QR code to redirect the audience to the project website or to provide the link to the website, and authors' contacts.

**Required information**

Please make sure that your poster includes the following information:

- Indicate the name of the Conference "1st MED IAERE-Conference - 23rd April 2022, Cagliari"
- Project title and acronym
- Funding (if the project is financed with EU funds, please indicate the programme and funding period)
- Partners (either using logos or stating in full their names)
- Countries involved in the application

**Contents**

We suggest highlighting:

- Objectives of the project
- Targets, who benefit from the project's activities
- Main activities, focusing on those with socio-economic relevance
- Outputs, focusing on those with socio-economic relevance
- Policy indications, explaining how the results of the project may be used by decision-makers to help them solve the problem underlying the project
- Exportability, showing how results can be used in other contexts (i.e. business solutions)
